

CSE494/598 Mobile Health and Social Networking (Sp 2009)
Term Project: Phase III (Completion) Requirements
Due: TBD

The goals of Phase II were (i) to amend and refine the Proposal, and (ii) to prepare and organize for the implementation. This report loosely reflects to the *Construction* phase of the *Unified Software Development Process*. It is the last phase, completing and finalizing your project. This means that this report will provide a comprehensive description of your entire project, from start to finish, additionally including a description of your code, sample runs and test results. In addition, the report should provide answers to the following question:

1. How would you go about advertizing your application?
2. What is the deployment model?

Submit hardcopy of the report at the beginning of the class. The report should be written in a technical style using good English. All referenced sources should be cited. In writing report take into account the feedback you got from the instructor during face-to-face meeting. Restrict your report to maximum of 10 pages (minimum 10 point font and excluding citations).
