

## CSE535 Mobile Computing, FALL 2007

### Paper Presentation

As a **schedule**, each class has two presentations. Each presentation has 25 minutes presentation and 5 minutes Q&A section. You must remember this is the technical paper presentation. The presentation should include

- Brief background
- Motivation
- Novelty and contributions of the paper
- Key ideas and details of the paper
- Key results of the paper
- How does the paper related to the class
- How does the paper related to your project
- Conclusion

The roles and requirements of presenter, critics and summarizer are as follows:

- **Presentation:** A presenter is required to submit the presentation slides to the TA via email **24 hours** before the presentation. The TA will review the slides and upload them to our course web page before the class.
- **Critique:** For each paper, there will be 3 designated critics. A critic is required to submit his or her critique of the presentation as well as the paper **before the next class** after the presentation. A critic should submit his/her critique for the paper to our **class blog** and send the critique for the presentation to the TA via email. Please remember you have to keep your critique into two separate file.
- **In-class and online discussion:** Students can ask questions during presentation. Besides, the class will also discuss the paper on a **class blog**. Students will be evaluated based on their participation in the discussion.
- **Summary:** There will be a student designated to summarize the paper presentation and the online discussion of each paper. The submission should be done via our **class blog a week** after the presentation.

For example, for a presentation on Nov. 6 (Tue),

- A presenter should send the presentation slides on Nov. 5 (Mon).
- Critics should submit a softcopy before the class on Nov. 8 (Thu).
- A summarizer should submit a softcopy before the class on Nov. 13 (Tue).

If you have any questions, please feel free to contact the TA (su.kim@asu.edu).
